

M24

- 24-Place Microhematocrit Centrifuge
- Affordable
- Results in Less Than 5 Minutes

Centrifuges

Advantages

Fast results in just five minutes
 Spins 24 standard 75mm capillary tubes
 Ready-to-use...no add-on costs
 Quiet, vibration-free operation
 Reader disk included

Design Features

Impact-resistant safe-view lid
 All-metal body construction
 Cooling fan for motor compartment
 Aluminum rotor for low heat transfer
 Heavy duty high-speed motor
 Safety shut-off switch in lid
 Locking lid
 Wide mouth for easy clean up

Specifications

12,000 rpm fixed speed
 Nominal RCF=14,800 g
 Brushed motor
 110V AC (220V AC available)

Controls

Illuminated power switch
 Electric brake for quick stop
 Auto-off 15-minute timer with bell

Includes

24-place hematocrit rotor
 Reader disk— read tubes directly on the rotor

Warranty

One year on materials and workmanship

Dimensions and Weight

Height: 10" (235mm)
 Length: 13" (330mm)
 Width: 12" (304mm)
 Weight: 23 lbs. (10.4kg)

The LWS-M24 Centrifuge is a truly affordable microhematocrit centrifuge. This unit is designed for its ease of use in the laboratory. Spin hematocrits in less than 5 minutes at 12,000 rpm. The M24 has a microhematocrit reader disk provided with every unit. Read the tubes directly on the rotor without picking them up.
